INDEX TO VOLUME X

PAGE

Abortion reactions, epidemic, in children, further studies on, J. P. Sedgwick, W. P. Larson and Walter R. Ramsey..... 197
Abramson, H. L.: The spinal fluid in poliomyelitis and its differentiation from fluids of other infections..... 344
Albuminuria, orthostatic, phthalein test in. T. C. Hempelmann..... 418
Ammoniacal diaper in infants and young children. John Zahorsky..... 436
Artificial food, adaptation of an, to human milk, studies in. H. J. Gerstenberger, H. D. Haskins, H. H. McGregor and H. O. Ruh..... 249
Atropin treatment for the exudative diathesis in infancy. Jerome S. Leopold 288
Bacillus abortus (Bang), does it infect man? Matthias Nicoll, Jr., and Josephine S. Pratt..... 203
Blood aspirations, intravenous, longitudinal sinus as place of preference in infancy for injections and, including transfusion. Henry F. Helmholz 194
Blood, urea of, the total nonprotein nitrogen and the phenolsulphonephthalein excretion in children. Wilder Tileston and C. W. Comfort.. 278
Bronchial glands, studies in. William W. Howell..... 90
Brown, Alan: Etiology of tetany—Metabolic and clinical studies..... 313
Circulation, the, résumé on: Recent progress in pediatrics. Frank N. Wilson 376
Clark, H. C.: A congenital malformation of the intestine..... 360
Clothing, the influence of, on the surface temperature of infants. W. B. McClure and L. W. Sauer..... 425
Comfort, C. W.: The total nonprotein nitrogen and the urea of blood, and the phenolsulphonephthalein excretion in children..... 278
Courtney, Angelia M.: A chemical study of woman's milk, especially its inorganic constituents 229
Courtney, Angelia M.: A comfortable arrangement for the separate collection of urine and feces of male infants..... 410
Courtney, Angelia M.: Studies in infant metabolism and nutrition, V. The composition and preparation of protein milk (Eiweissmilch)..... 172
Current Pediatric Literature.....74, 148, 222, 305, 391, 481
D'Espine's sign, diagnostic significance of, Henry Farnum Stoll..... 183
Dextrocardia, congenital, with patent interventricular septum with fluoroscopic and electrocardiographic examination. Rudolph Duryea Moffett and Selian Neuhof..... 1
Drennan, L. M.: A congenital malformation of the intestine..... 360
Ductless gland therapy, a contribution to. Royal S. Haynes..... 331
Dunn, Charles Hunter: Some studies on sugar in infant feeding..... 77
Duodenal ulcer in infancy an infectious disease. Linton Gerdine and Henry F. Helmholz..... 397
Dysendocrinism in children. Mark S. Reuben..... 110
Endocarditis, acute infective. Due to streptococcus attenuans in a child one year old. Francis Huber..... 33
Exudative diathesis, atropin treatment for, in infancy. Jerome S. Leopold.. 288
Exudative diathesis. Carl G. Leo-Wolf..... 293
Fales, Helen L.: A chemical study of woman's milk, especially its inorganic constituents 229
Fales, Helen L.: A comfortable arrangement for the separate collection of urine and feces of male infants..... 410

PAGE

Fales, Helen L.: Studies in infant metabolism and nutrition, V. The composition and preparation of protein milk (Eiweissmilch) 172
Feeding, infant, some studies on sugar in. Langley Porter and Charles Hunter Dunn 77
Fletcher, Almon: Etiology of tetany—Metabolic and clinical studies..... 313
Gerdine, Linton: Duodenal ulcer in infancy an infectious disease..... 397
Gerstenberger, H. J.: Studies in the adaptation of an artificial food to human milk 249
Greil, Gaston, J.: Intestinal parasites in children..... 363
Haskins, H. D.: Studies in the adaptation of an artificial food to human milk 249
Haynes, Royal S.: A contribution to ductless gland therapy..... 331
Heart disease, a case of congenital, with demonstration of specimen. John Lovett Morse..... 27
Heiman, Henry: Parapharyngeal abscess as distinguished from retropharyngeal and peritonsillar abscesses..... 104
Helmholz, Henry F.: Duodenal ulcer in infancy an infectious disease.... 397
Helmholz, Henry F.: The longitudinal sinus as the place of preference in infancy for intravenous aspirations and injections, including transfusion 194
Hempelmann, T. C.: Catarrhal jaundice in infancy..... 39
Hempelmann, T. C.: The phthalein test in orthostatic albuminuria..... 418
Herrman, Charles: The tonsillar manifestations in the early diagnosis of measles 274
Hess, Alfred F.: A protective therapy for mumps..... 99
Holt, L. Emmett: A chemical study of woman's milk, especially its inorganic constituents 229
Hoobler, B. Raymond: The protein need of infants..... 153
Howell, William W.: Studies in bronchial glands..... 90
Huber, Francis: Acute infective endocarditis, due to streptococcus attenuans in a child one year old..... 33
Infant welfare work, recent progress in. Philip Van Ingen..... 212
Intestine, a congenital malformation of. L. M. Drennan and A. H. Clark.. 360
Intestinal parasites in children. Gaston J. Greil..... 363
Jaundice, catarrhal, in infancy. T. C. Hempelmann..... 39
Kidney, polycystic disease of, in an infant 3 months old. Jerome S. Leopold and Monroe B. Kunstler..... 367
Larson, W. P.: Further studies on the epidemic abortion reactions in children 197
Leopold, Jerome S.: The atropin treatment for the exudative diathesis in infancy 288
Leo-Wolf, Carl G.: Exudative diathesis..... 293
Longitudinal sinus as the place of preference in infancy for intravenous aspirations and injections, including transfusion. Henry F. Helmholz. 194
McClure, W. B.: The influence of clothing on the surface temperature of infants 425
McGregor, H. H.: Studies in the adaptation of an artificial food to human milk 249
Measles, tonsillar manifestations in early diagnosis of. Charles Herrman.. 274
Meigs, Grace: Review of the literature on the feeding and gastro-intestinal diseases of infants for the year 1914-1915..... 42
Meningitis, epidemic, extensive purpuric eruptions in. Edward A. Morgan 266
Metabolism and nutrition, infant, studies in, V. The composition and preparation of protein milk (Eiweissmilch). Angelia M. Courtney and Helen L. Fales..... 172

PAGE

Milk, protein, (Eiweissmilch) V. The composition and preparation of. Studies in infant metabolism and nutrition. Angelia M. Courtney and Helen L. Fales 172
Milk, woman's, chemical study of, especially its inorganic constituents. L. Emmett Holt, Angelia M. Courtney and Helen L. Fales 229
Moffett, Rudolph Duryea: Congenital dextrocardia with patent interventricular septum. With fluoroscopic and electrocardiographic examination 1
Morgan, Edward A.: Extensive purpuric eruptions in epidemic meningitis 266
Morse, John Lovett: A case of congenital heart disease with demonstration of specimen 27
Mumps, a protective therapy for. Alfred F. Hess 99
Myatonia congenita (Oppenheim), pathology of. August Strauch 16
Myelitis, acute, following varicella. Report of a case. D. C. Wharton Smith 445
Neuhof, Harold: Acute nonepidemic inflammation of the sublingual glands in children: An affection of unknown origin 94
Neuhof, Selian: Congenital dextrocardia with patent interventricular septum. With fluoroscopic and electrocardiographic examination 1
Nicoll, Matthias, Jr.: Does the bacillus abortus (Bang) infect man? 203
Nonprotein nitrogen in blood of new-born, quantitative determination of. Frederick W. Schlutz and Chauncey J. V. Pettibone 206
Nonprotein nitrogen, total, and the urea of the blood, and the phenolsulphonephthalein excretion in children. Wilder Tileston and C. W. Comfort 278
Oxalic acid excretion in the urine of children. Julius Parker Sedgwick 414
Parapharyngeal abscess as distinguished from retropharyngeal and peritonsillar abscesses. Henry Heiman 104
Pediatric literature, current 74, 148, 222, 305, 391, 481
Pediatrics, Progress in 42, 110, 212, 293, 376, 447
Pettibone, Chauncey J. V.: Quantitative determination of nonprotein nitrogen in blood of new-born 206
Phthalein test in orthostatic albuminuria. T. C. Hempelmann 418
Polycystic disease of the kidney in an infant three months old. Jerome S. Leopold and Monroe B. Kunstler 367
Porter, Langley: Some studies on sugar in infant feeding 77
Pratt, Josephine S.: Does the bacillus abortus (Bang) infect man? 203
Protein need of infants. B. Raymond Hoobler 153
Pyloric hypertrophy in new-born infants. F. L. Wachenheim 87
Ramsey, Walter R.: Further studies on the epidemic abortion reactions in children 197
Respiratory diseases, résumé of the recent literature on. Charles Hendee Smith 447
Reuben, Mark S.: Dysendocrinism in children 110
Ruh, H. O.: Studies in the adaptation of an artificial food to human milk 249
Sauer, L. W.: The influence of clothing on the surface temperature of infants 425
Schlutz, Frederic W.: Quantitative determination of nonprotein nitrogen in blood of new-born 206
Sedgwick, J. P.: Further studies on the epidemic abortion reactions in children 197
Sedgwick, Julius Parker: Oxalic acid excretion in the urine of children .. 414
Smith, Charles Hendee: Résumé of the recent literature on respiratory diseases 447
Smith, D. C. Wharton: Acute myelitis following varicella. Report of a Case 445
Spinal fluid, the, in poliomyelitis and its differentiation from fluids of other infections. H. L. Abramson 344
Stoll, Henry Farnum: The diagnostic significance of D'Espine's sign 183

PAGE

Strauch, August: Pathology of myatonia congenita (Oppenheim)..... 16
Streptococcus attenuans, acute infective endocarditis, due to, in a child one year old. Francis Huber..... 33
Sublingual glands in children, acute nonepidemic inflammation of: An affection of unknown origin. Harold Neuhof..... 94
Sugar in infant feeding, some studies on. Langley Porter and Charles Hunter Dunn 77
Tetany, the etiology of—Metabolic and clinical studies. Alan Brown and Almon Fletcher 313
Tileston, Wilder: The total nonprotein nitrogen and the urea of blood and the phenolsulphonephthalein excretion in children..... 278
Tuberculous exposure, controlled by von Pirquet reaction, a clinical study of two hundred and twenty-eight children in relation to. John B. Manning and Howard James Knott..... 354
Tonsillar manifestations in early diagnosis of measles. Charles Herrman.. 274
Urine and feces, a comfortable arrangement for the separate collection of, of male infants. Angelia M. Courtney and Helen L. Fales..... 410
Van Ingen, Philip: Recent progress in infant welfare work..... 212
Varicella, acute myelitis following. Report of a case. D. C. Wharton Smith 445
von Pirquet reaction, a clinical study of two hundred and twenty-eight children in relation to tuberculous exposure, controlled by. John B. Manning and Howard James Knott..... 354
Wachenheim, F. L.: Pyloric hypertrophy in new-born infants..... 87
Wilson, Frank N.: Recent progress in pediatrics: Résumé on the circulation 376
Zahorsky, John: The ammoniacal diaper in infants and young children... 436
